ENERGY SAVINGS

HUMIDIFIERS

Why humidify? Dry air can contribute to poor health and static electricity. The right humidifier can be beneficial to your health and utility costs, and improve the overall air quality and comfort of your home.

- Bypass Humidifier / The Aprilaire Model 600 Whole-House Humidifier
- Powered Humidifier / The Aprilaire Model 700 Whole-House Humidifier
- Steam Humidifier / The Aprilaire Model 800 Residential Steam Humidifier

AIR CLEANERS

The air quality in your house may be 2 to 5 times worse than the outdoor air. By installing an air cleaner, you eliminate damaging pollutants like dust mites, pollen, mold, radon, carbon monoxide, and other chemical fumes.

- Lo Media / Honeywell F100F
- High Media / Honeywell F200E
- Electronic / Honeywell F300E
- Perfect Air / Bryant GAPAXXBB

AIR PURIFIERS

There's an endless supply of health products on the market, yet the air quality in one's home is often overlooked. Air purifiers are a great ally in preventing illness and protecting against allergies.

- In Duct up to 1700 SF / Sanuvox RI700GX
- In Duct up to 4000 SF / Sanuvox R+
- Object Purifier / Sanuvox Saber Genius
- Portable / Sanuvox P900GX

DUCT CLEANING

Professional duct cleaning drastically eliminates the presence of pollutants, which leads to cleaner air being discharged into your home. It can improve your health and home value, lower your energy bills, and extend equipment life.

- Air Duct Maintenance

CO DETECTOR

Provide carbon monoxide protection in your home for all age groups and conditions.

- NSI 3000 Model

IN DUCT SMOKE DETECTOR

Early detection of smoke can be the difference in vacating your home safely.

- System Sensor Innovairflex

GENERATOR

Can you afford to lose power for an extended period of time? Have your home ready to stand up to unpredictable power outages.

- Generac Guardian Series

SURGE PROTECTORS

Surge protectors reduce the loss of your valuable electronics and can lower your electric bill.

- Condenser / Supco SCMPLUS
- Furnace / Supco SCMPLUS
- Panel / Eaton CHSPULTRA

WATER HEATER EXPANSION TANK

Expansion tanks control pressure build-up in closed hot water systems, eliminating potential safety hazards and saving energy.

- Amtrol Thermxtrol

WATER SHUT OFF

The WAGS valve can protect against flooding and damage caused when a water heater fails.

- Taco WAGS
- Flood Stop

REFRIGERANT LOCKING CAPS

Keep your refrigerant under control. Locking caps are corrosion resistant and help prevent tampering or access.

- Novent Locking Caps

PROGRAMMABLE THERMOSTAT

Use less energy, save money, increase your home comfort and take control of the temperature in your house.

- Digital / VisionPro 8000
- Wireless with Remote / Prestige
- Communicating (Internet capable) / Total Connect

ZONING

By installing a zoning system, you are able to transform your existing heating and air conditioning into a personalized comfort system without expensive equipment upgrades.

- Arzel Zoning System

MINI SPLITS

Ductless split-systems are versatile, secure, and operate quietly.

- Mitsubishi Mini Split System

GEOHERMAL HEATING

Geothermal heating provides low heating costs and uses significantly less electricity than standard heating systems.

- Climate Master

ATTIC INSULATION

One of the best ways of preserving heat in your home and lowering your energy bills is by insulating your attic.

DUCT SEALING

A typical home with forced air can lose up to 20% of air that moves through the duct system. This loss in comfort and costs can be avoided by improving your duct performance.

REBATES & FINANCING

We offer a variety of ways to save on all of your heating and cooling needs. Seasonal manufacturing rebates as well as low interest and deferred payments are always available.
